GOVERNMENT OF THE
REPUBLIC OF HONDURAS

MINISTRY OF FOREIGN AFFAIRS AND INTERNATIONAL COOPERATION

The logo consists of the letters "PGC" in a bold, sans-serif font. The letter "P" is dark blue, while "G" and "C" are orange.

PLATAFORMA DE GESTIÓN DE LA COOPERACIÓN

What is the PGC?

Following international agreements on "Transparent and Responsible Cooperation", the Government of Honduras developed an Aid Management Platform (PGC for its acronym in Spanish) as an E-Government tool for recording and transparent disseminating the presence, efforts and achievements of development cooperation in our country.

Anchored in the principles of the Global Partnership for Effective Development Co-operation, the PGC helps facilitate coordination and harmonization of cooperation, helping the government and Development Cooperation Partners strengthen Result Based Management.

The PGC uses the IATI standard, making the information compatible with other systems alike

The role of The Ministry

Given that one of the roles of the Ministry of Foreign Affairs and International Cooperation is to coordinate the management of Development Cooperation, aiming to establish mechanisms that ensure that external funds are invested orderly, in line with the objectives of the Country Vision and the priorities set at our national plans.

The PGC is vital to help the Ministry achieve this goal through the availability and improved management of information regarding cooperation in the country.

Who can use the PGC?

Continuous improvement

In order, to keep up and include the progress made in the architecture of the international cooperation system and its impact at the national level, the PGC is constantly updated in order to improve its services through the creation of new modules to include South-South Cooperation, the efforts of the private sector and humanitarian aid, both received and provided.

Other ongoing work includes the analysis of climate finance in the country.
